EXPERIENCE

Owner & Product Designer

2024 - 2025

Core AI Solutions

- Founded and branded Core AI Solutions, an AI consulting and design agency
- Designed the company website, marketing content, and client proposals to establish a clear brand identity
- Delivered AI consulting and web design projects for agency clients, including websites, prototypes, and custom AI workflows
- Facilitated customer workshops and user research sessions to inform design direction and validate solutions
- Created AI agent routing and interaction experiences to improve customer journeys

Senior Business Analyst

2023 - 2024

BDO USA,

- Designed AI-powered UX flows and LLM-driven interfaces, creating new interaction paradigms for enterprise clients
- Delivered end-to-end product design cycles, establishing repeatable workflows for design delivery
- Partnered with PMs and engineers to ensure technical feasibility, aligning prototypes with performance requirements
- Created interaction models for complex workflows, simplifying navigation and improving usability test outcomes

UI/UX Designer & Senior Business Analyst

2020 - 2023

LifeSecure Insurance

- Directed UI/UX design at scale, developing reusable design systems and component libraries for consistent cross-platform delivery
- Built responsive web and mobile prototypes in Figma with WCAG AA accessibility compliance, ensuring inclusivity across a broad user base
- Facilitated Design Thinking workshops, driving new product concepts from research insights into production
- Partnered with developers for design handoff, ensuring front-end fidelity and reducing usability defects

SUMMARY

UI/UX Designer creating future-forward digital experiences that blend usability with innovation. Skilled in emerging AI platforms, design thinking, and cross-functional collaboration, I turn complex ideas into intuitive, accessible, and responsive products.

CORE SKILLS

UI/UX Design:

- End-to-End Product Design & Prototyping
- Strong Figma Proficiency, Interaction Design for Complex Workflows
- Usability Testing
- User Research
- Design Systems Information Architecture
- Responsive Web & Mobile Interfaces
- CSS, HTML, Javascript
- Accessibility Standards (WCAG 2.1, ADA, AODA)

Design Tools & AI Platforms:

- Figma
- Adobe Creative Suite
- Mural
- Relume.io
- Cursor.ai
- Gamma.ai
- Lovable.dev
- RunwayML.com
- Kling.ai

Business Analyst

2018 - 2020

LifeSecure Insurance

- Tailored Agile processes to better support design and development workflows, improving alignment between IT and user experience goals.
- Managed requirements and quality assurance with a focus on translating business needs into design-ready specifications.
- Facilitated collaborative workshops and cross-functional meetings, enabling designers, developers, and executives to co-create solutions.

Project Manager

2017 - 2018

LifeSecure Insurance

- Oversaw backlog and roadmap management, aligning priorities across UX, engineering, and product
- Streamlined Agile workflows, enabling faster delivery cycles and more frequent feature releases
- Embedded user-first principles into project execution, shaping requirements around customer experience goals

Business Analyst

2016 - 2017

OnVisor

- Produced wireframes and prototypes that defined the MVP experience for a new product platform
- Created process mapping and workflow documentation to guide cross-functional development
- Partnered with engineering on design handoff, ensuring designs were implemented accurately

Business Analyst

2011 - 2014

Bloom Health

- Designed consumer-facing features to improve usability and adoption across healthcare benefits products
- Conducted user research and usability testing, translating findings into actionable design refinements
- Supported partner integrations, ensuring a consistent and intuitive user experience across multiple enterprise solutions

EDUCATION

Bachelor of Science

Arizona State University

- School of Letters and Sciences
- Bachelor of Science - Interdisciplinary Studies: Business, Music, Communications

AI & Emerging UX:

- AI/GenAI UX Design
- Copilots & Conversational Agents
- LLM Infused Interactions
- AI Powered UX

Methodologies:

- Agile (*Scrum, Kanban, Sprint Planning, Backlog Grooming, Daily Stand-Ups, Retrospectives*)
- Design Thinking
- Iterative Prototyping
- Continuous Improvement

Collaboration & Delivery:

- Cross-Functional Agile Collaboration
- Stakeholder Communication
- Partnering with PM/Engineering
- Technical Feasibility
- Design Handoff
